I, James H. Salter, am the attorney of record for the above identified patent application as evidenced by the Power of Attorney filed in the present application on February 9, 2005. I am making this petition on behalf of eBay Inc., the assignee of the present invention. As the attorney of record, I am empowered to act on behalf of the assignee and, in accordance with 37 C.F.R. § 1.321(b)(iv), to sign this terminal disclaimer.

Certificate Under 37 C.F.R. § 3.73(b)

Your petitioner, eBay Inc., certifies that they are the owner of the entire right, title and interest in and to the above-identified patent application (U.S. Application Serial No. 10/749,736) and to co-pending Application No. 11/241,008. Your petitioner owns the entire right, title, and interest of these applications by nature of the assignments executed and filed for both of these applications. The assignment for co-pending Application No. 11/241,008 was recorded on September 30, 2005 on Reel 017069, Frames 0601 - 0605, with the United States Patent and Trademark Office. The above-identified patent application (U.S. Application Serial No. 10/749,736) is co-pending of co-pending Application No. 11/241,008.

The undersigned representative of the assignee has reviewed the evidentiary documents of title and certifies that to the best of assignee's knowledge and belief, title is in the assignee, eBay Inc., seeking to take the action set forth in this disclaimer.

Terminal Disclaimer

Your petitioner hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified patent application, which would extend beyond the expiration date of the full statutory term, as presently shortened by any terminal disclaimers, of any patent which may issue from co-pending Application No. 11/241,008. Petitioner hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to any patent which may issue from co-pending Application No. 11/241,008 and the legal title of the above-identified application and any patent granted thereon remain common, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors and assigns.

Limitations on the Disclaimer

Your petitioner does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term as presently shortened by any terminal disclaimer of any patent which may be granted on co-pending Application No. 11/241,008 in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to the expiration date of its statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title as stated hereinabove. Your petitioner does not disclaim any terminal part of any patent granted on the above-identified application if no patent issues from co-pending Application No. 11/241,008.
